STOCKS DRIFT AIMLESSLY

AWAITING PEACE OR WAR.

FLUCTUATIONS IN COTTON RETARD ACTIVITY.

News That Several Large Loans Have Been Made by Railroads Influences Sentiment.

New York, Feb. 5 .- To-day's stock market was a drifting match, operators for the most part standing idly by and watching the amazing fluctuations in the cotton market and awaiting the expected definite outcome of the question of peace or war in the far East. The mere fact of the wild condition of the cotton market was sufficient to exert a depressing influence

on stocks whether the price of ofthat was advancing or collapsing. As a of fact the rebounds in that market were of almost equal violence with the drops. The grain markets also were inclined to The grain markets also were inclined to run off. Little light was to be obtained from these markets, therefore, on the chances of peace or war. The foreign arbitrage brokers were idle, reflecting the almost stagnant condition of foreign operation pending the settlement of the question. The weakness of stocks grew more marked as the day progressed, and during the later part of the session losses of a point or more became quite general in the prominent active stocks. The market showed no effective resiliency and the closing was weak and dull.

EARLY RESISTANCE.

EARLY RESISTANCE. There were some early points of re-sistance to the declining tendency. Amalgamated Copper was lifted on the circula-

ramated Copper was lifted on the circulation of a rumor that another favorable ruling had been made in its Montana litigation. Sugar, United States Steel preferred and the Alton stocks made short-lived demonstrations of strength.

The first marked weakness developed in Wabash preferred, and in Pennsylvania the whole market weakened after the publication of a report that the Pennsylvania interests had issued notes for \$50,000,000 for eighteen months at \$4\frac{1}{2}\$ per cent. Several reports were circulated during the day to indicate a settlement of the Pennsylvania-Gould dispute, and an effort was made to make the proceeds of this loan applicable to this settlement, but without any avail to check the decline in the stocks affected.

INTEREST IN PRICE.

INTEREST IN PRICE. Keen interest is felt in the financial world to learn the price at which these

dent of the large temporary loans secured by the Pennsylvania, the New York Central and other railroads a year ago, and the substantial commission allowed to the substantial commission allowed to bankers at that time in the shape of discount on the notes. Those notes were subsequently taken up by the proceeds of the Pennsylvania stock issue. Rumors have been abundant for some days past of a contemplated capital issue by the Pennsylvania, which have been vigorously denied. These evidences of loan expansions, to which was added the sale of \$5,00,000 of Missouri Pacific notes, was of more effect on sentiment than the estimates of a gain in cash reserves by the banks on the week of about \$2,000,000, in spite of the large Subtreasury requirements and shipments to New Orleans.

Bonds were dull and heavy. Total sales, par value, \$2,110,000. United States bonds were unchanged on call.

Wall Street Gossip

Reported by the New York Globe-Advertiser hrough Francis, Bro. & Co., No. 214 North Fourth street. In the London market American stocks shared in the general heaviness and prices came little ower. Arbitrage houses did very little husi-less for foreign account.

Pennsylvania-Pennsylvania was again one of the features, not so much because of the decine it actually sustained, as because of a rather obvious effort to depress it. The firm which was the most conspicuous yesterday was again aggressively bearlish. The gossip of the board had it that the commission-house in question was acting for commission-house in question was acting for wealth bourg custamer, who is a man of large wealth being custamer, who is a man of large wealth being custamer, of the system of the processional trading. At the same time come of the specialists contended that the indeparty whose er that the same time come of the specialists contended that the indeparty whose er that samely. A statement which do not meet incredulity, especially after one of the news agancies stated that on good authority the Pennyivania had arranged to borrow \$50.000.000 at equal to \$45 on coupon notes, the loan to date from April 1 and to run for eighteen months. In the last hour the report was confirmed. The money will be used in its

UNITED RAILWAYS STOCK HAS IMPROVED SUPPORT.

TRANSIT SHARES STILL HOLD STEADY.

After an Early Break the Market Rallies and Closes at Previous Day's Figures.

St. Louis Transit again closed steady after an early decline which carried the price of the stock from \$6.87\(\frac{1}{2}\) to \$6.25. From the low point there was a good rally back to \$6.75, which was bid for more at the close. The volume of trading was not nearly so large as on the preceding three days and less selling pressure was apparent. United Railways preferred was the strong spot of the traction group, with sales at \$51.50 and \$51.75, the net gain for the day being 75 cents a share. The 4-per-

cent bonds were decidedly weak, with sales at \$77.57½, \$77.75 and \$77.50. There was a continued good demand for the underlying street-railway bonds, which are a first lien on the property of the operating company. Trading in other issues was in small lots and at generally steady prices.

Native Supply Light - Beef Cattle

Native Supply Light - Beef Cattle
Steady-sheep Rule Higher.
NATIVE CATTLE-Beef Steers—The total receipts of cattle were less than half of a week ago, the supply running close to 1,368 head, against 3,500 a week ago. The number of native cattle consisted of a very small partion of the total supply and was hardly enough to create a market. With the quality of the offerlings common to medium, it was fully enough to meet the requirements, Local men beamfulvery sparingly, as they had all they needed, and the kind was not good enough to bring them out. While hids were some weaker, there was no particular change. Mest of the store cattle were of common to medium grades; scarcely any of good flesh were available.

SHIPPING AND EXPORT STEERS. Best native beef steers, strictly fancy, 1.30091.700 lbs. \$2.295.50 (Louise export steers, 1.20091.500 lbs. \$2.295.50 (Choice export steers, 1.20091.500 lbs. \$0.093.55 (Good shipping and export steers, 1.3009 4.5095.50 fair to medium shipping steers, 1.300 (S.1.50) lbs. \$4.2564.60 (DRESSED REEF AND BUTCHER STEERS.

REPUBLIC SPECIAL.

New Yerk, Feb. 5.—Live poultry—One car Wescern arrived to-ony, which winds up the receipts for the week. Demand is over, and while fully two cars are unsold, the market closed with a rather steady tone. Quotations unchanged. Dressed poultry—Receipts to-iny 2,755 pkgs.; arrivals were moderate, out considerable stock still out, and as the demand for the week is pictly well over, it will probably have to be carried over to Monday. Advices from the West were strong, owing to the heavy snows, and no great increase in the supply is looked for in the immediate future, rowls were steady at 13-5c on urline, while fancy marks worked out at he in a small plus the several lots of small bars. Southern while fancy marks worked out at he in a small country, the supply had to go lower. Capons in free supply, but met a good demand at steady strices. Fresh turkeys arrived sparingly, but cover thing was coase and large, and particular buyers were compelled to use trozen. Fresh durkeys arrived sparingly, but coverything was coase and large, and particular buyers were compelled to use trozen. Fresh durkeys arrived sparingly, but coverything was coase and large, and particular buyers were compelled to use trozen. Fresh durks and grees evarre and desirable ints film. There was a moderate movement in frozen turkeys and reasting chickens, while some sales were reported on troilers up to 2s. Fowls moved slowly. Fresh killed squabs, prime, dark dozen 32.562.30. Other quotations unchanged.

New York, Feb. 5.—Coffee-Shot Rio uncertaint mild steady it turners opened standy at

Butcher Cattle-At no time this week has the supply of butcher offerings been heavy, and if anything slightly below a normal supply of butcher offerings been heavy, and if anything slightly below a normal supply. The market has ruled in fully good to count to take care of everything, and while command to take care of everything, and while control of take care of everything, and while of a conditions, buyers showing a disposition at all times to do business. The bulk of the supply was composed of helfers, mainly of a decent to pretty good kinds; outside of a load of fancy was had. While the demand has been good for helfers at 34.60, nothing else very good was had. While the demand has been good for helfers, it has been for tidy weights, and anything on this order are selling at 106415 higher than has week. Heavy helfers have sold slowly, as buyers could recur steems at many thing from a cutter up has sold well, with priors closing like higher than last week. The count rade has been good, and cuttifue from a cutter up has sold well, with priors closing like higher than last week. The canner are britising around last week's prices, common and shelly kinds are selling some lower. Killing buls are closing like higher than last week were hased on the following quotations:

COWS AND HEIFERS.

Fancy corn-fed helfers, 70967170 lbs. 2.7564.50
Fair to medium helfers. 2.7564.50
Good to choice helfers. 2.7564.50

## SUMMARY OF ST. LOUIS MARKETS

war news and generally bullish sentiment sent prices up just when the bears were beginning to feel assured, and closing prices were even stronger than on the previous day. At the start a damper was thrown upon the bulls by the weak foreign response to the domestic gains. Cables were only slightly higher. Still consols continued on the downturn and Japanese securities were lower. Free liquidation in the first hour caused a break of nearly a cent in the May option. Then the professionals jumped in and outside buying orders came to the surface. From this time on there was no doubt as to the strength of the market. The early losses were quickly wiped out and early sellers hastened to get back into the bull band wagon. War news came strong on the private wires in the last hour. Though the weather was warmer, there was no great increase in the receipts, and cash wheat again sold at \$1 a bu. in the sample corner. Heavy Argentine shipments and other bearish statistical indications had

no weight after the rally.

Corn opened strong and very firmly held, but later there was a decline in line with wheat. Weather conditions were generally mildly bullish and receipts were moderate. In the last hour the market shared the strength of wheat and there was brisk buying for outside account.

May wheat opened 14c off and closed 14c up.

May corn opened the up and closed he up. May outs closed he off.

Receipts of produce were moderate and prices of fruits and vegetables were firm.

Transit again closed unchanged after an early decline. United Railways preferred had good support. The 4-per-cent bonds closed sharply lower.
Yesterday's bank clearings were \$11,178,794, balances \$2,188,232. Discount rates were

steady between 5 and 6 per cent. Spot cotton was nominally 1/2c lower in the local market.

WHEAT VALUES ADVANCE AFTER EARLY RECESSION.

kets did not give much encouragement to the iongs. Though consols again were lower and some liquidation in Japanese sectrifies was reported, grain cables showed little response to the previous day's domestic advance. In the second hour outside buying orders began to come out. Fresh war news was on tap to raise the flagging spirit of the bulls, and those traders who sold short earlier in the second traders who sold short earlier in the sectraders who sold short earlier in the sectraders who sold short earlier in the sectraders.

Fruits and Vegetables.

APPLES—Fair ale sion became nervous. There was a sharp reversal, which closed the market nearly a cent above the previous day's final quo-

a cent above the previous day's final quotations.

The Modern Miller in its weekly review said. The wheat crop appears to be in fair condition in all pairs of the winter wheat helt, excepting in Eastern Kansas. Oklahoma and Texas, where there has been insufficient moisture ever since the crop was seeded and where there is complaint of peor germination. In other sections of the winter-wheat country the top growth is backward, and the appearance of the plant not of the best, yet investigation usually reveals a good root-growth. The movement of hard winter wheat to market is decreasing, as supplies in the terior are greatly reduced. Not much soft winter wheat is being offered.

May wheat opened 5½ coff and sold at: 884c, 884c, 88c, 874c, 874c, 874c, 874c, 874c, 874c, 874c, 874c, 884c, 8

Side, 89c, 89c, 89c, 190c.

Corn epened firm, but later declined on liquidation. The recession did not alarm the bulls, who took a firm stand on the showing of light receipts and unfavorable weather. There was brisk buying in the last hour, and the gain of the coarse grain was the same as that of wheat.

May corn opened be up and sold at

against 4900 bd, a week ago and so bd. in 1993.

Receipts of oats at St. Louis 47,250 bd., of which 28 cars local and 7 cars through, against 75,560 bd., of which 43 cars local and 13 cars through, in 1993. Shipments 45,075 bd.
